

# NELLI ARAVIND

Application Security Engineer | CEH | Vulnerability Assessment | OWASP Top 10

Hyderabad, Telangana (Open to Remote) | +91 6309579202 | naidu.aravind169@gmail.com | GitHub: Aravindnelli-ceh

## PROFESSIONAL SUMMARY

EC-Council Certified Ethical Hacker (CEH) with 2+ years of professional experience in application and API-driven environments, plus a 6-month CEH security internship and a 21-month network operations internship. Hands-on with REST API and JSON validation, log analysis, root cause analysis and incident escalation on live telecom and OTT platforms. Built SOC monitoring and Zero Trust security labs covering SIEM alert correlation, brute-force and phishing detection. Familiar with OWASP Top 10, vulnerability assessment and penetration testing tools (Nessus, Nmap, Wireshark). Seeking an Application Security Engineer role to apply security fundamentals to web application and API assessments.

## CORE SKILLS

**Application & Web Security:** OWASP Top 10, web application security, application security assessment, vulnerability assessment, MITRE ATT&CK

**API Security & Validation:** REST API and JSON response validation, API integration checks, error-code analysis, API troubleshooting

**Vulnerability Assessment & Penetration Testing:** CEH-certified; Nessus, Nmap, Wireshark; reconnaissance, scanning and enumeration (lab-based)

**Security Monitoring:** SIEM alert correlation, IDS/IPS, log analysis, failed-login investigation, malware and phishing triage, incident response

**Networking:** TCP/IP, DNS, DHCP, VLAN, PPPoE; MikroTik (Winbox); PuTTY, Ping, Traceroute, NSLookup

**Scripting & Data:** Core Python, basic SQL

**Tools & Platforms:** TotalView CRM, Sugar CRM, OneRadius, Mitra, SSCSmart, MS Office, Windows, Linux, macOS

## PROFESSIONAL EXPERIENCE

### Engineer – Networking | SPOC Lead

2 Jan 2025 – 30 Jul 2026

Lytus Sri Sai Networks Pvt. Ltd. (T-Fiber Project)

- Validated REST API and JSON responses, analysed DRM and sync logs, and ran API checks for TotalView Corpus CRM and DRM middleware with backend and development teams.
- Investigated recurring issues through root cause analysis and documented findings so the fixes prevented repeat incidents.
- Resolved OneRadius error codes, partner creation and package price mapping, validating data and API behaviour end to end.
- Diagnosed streaming and connectivity issues with Ping, NSLookup, Traceroute, PuTTY and Winbox; configured MikroTik routers and switches; escalated qualified incidents to L2/NOC with full documentation.
- Handled 50–70 partner and customer tickets per day and tracked SLA timelines across TotalView, Mitra, STB App and SSCSmart.
- Acted as primary point of contact for clients, vendors, BDMs and MSO operators; delivered product demonstrations and produced daily, weekly and monthly reports.

### Cybersecurity Intern – CEH v12 Program

May 2024 – Nov 2024

Hacker School (EC-Council Accredited Training Center)

- Completed the EC-Council Certified Ethical Hacker (CEH) v12 program, covering reconnaissance, scanning, enumeration, vulnerability analysis, web application attacks and the OWASP Top 10.
- Practised vulnerability scanning and network traffic analysis with Nmap, Nessus and Wireshark in lab environments.

### Application Support Engineer

20 Jul 2023 – 30 Apr 2024

Bissi Yaazi Technologies Pvt. Ltd. (Payzo)

- Diagnosed application crashes, playback, login, OTP and session issues across Android TV, Samsung Tizen and LG Smart TV over chat, email and voice.
- Reproduced issues, documented findings and tracked escalations with internal teams through to closure.

### Intern – Network Operations

~21 months

Lytus Technologies

- Gained hands-on exposure to network monitoring, troubleshooting and basic issue investigation.

## SECURITY PROJECTS

- SOC Security Monitoring & Incident Detection Lab (GitHub: Aravindnelli-ceh): log analysis, SIEM alert correlation, failed-login investigation and incident response on simulated events.
- Zero Trust Security Lab: SIEM, DNS filtering and behavioural detection of phishing, brute-force and anomalous logins.

## CERTIFICATIONS & EDUCATION

- EC-Council Certified Ethical Hacker (CEH) – issued 30 Oct 2025, Certification No. ECC3691802457 | Core Python | Basics of SQL
- B.Tech, Mechanical Engineering – Avanthi Engineering College, Visakhapatnam, 2019–2023
